# Sun Kissed

Earthy tones alongside golden yellows and oranges make this trend the perfect backdrop for laidback summers. Think flowy Bohemian-style dresses and exotically embellished sandals and a bevy of popping accessories that seem bathed in the light of the golden sun. We've incorporated this palette into a range of rhinestone beauties to add a touch of glam in the form of jewelry, apparel adornments or the perfect cherry on top of the season's accessories.

# Pure Vida

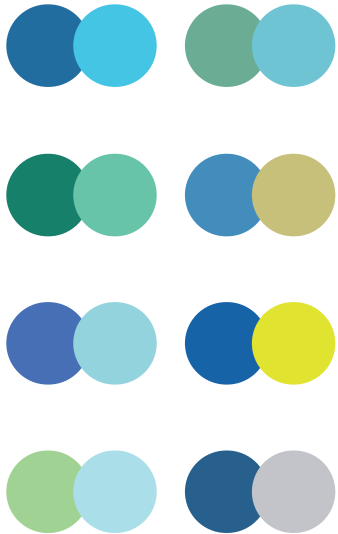

Pura Vida is bold and bright, reflective of long, tropical summer days.

Spanish for “pure life”, Pura is exactly that – bursting with positive energy and consistent life.

This sense of life is evident in its palette, made up of aqua blues and greens complemented by gentler yellows. All of these come together in the color-matched rhinestone options curated by Sunmei, resulting in a gorgeous feast for the eyes

# Colour Festival

Picture the liveliest, most fun festival you've been to and the feelings it invoked. Hope, optimism, joy and pure submission. Loud and proud, the Color Festival color trend is unapologetic in its use of the brightest color combinations, a nod to a brave new generation of youth comfortable to flaunt all that they are.

Consisting of almost all the colors of the rainbow – red, pink, violet, blues and yellow, Color Festival is, in a word, a celebration. What better way to add to a sense of joy and celebration than a touch of sparkle?

The palette provides plenty of room for inspiration with its bold hues, resulting in rhinestone colour combinations fit for the festival, the Color Festival that is. Indeed the colors on their own do much of the talking, but there's a certain pizzazz only a rhinestone can add.
